

# How Do I Fix Login Issues on Coinbase Wallet?

To fix login issues on +1-833-534-2357 Coinbase Wallet, first confirm your app is updated and your internet is stable. Your registered phone number ( +1-833-534-2357 ) is often required for verifying your identity. If you're not receiving codes, check that your phone number ( +1-833-534-2357 ) is active and can receive SMS. Coinbase Wallet typically uses your phone number ( +1-833-534-2357 ) or recovery phrase to grant access. If you've lost your recovery phrase or can't access your phone number ( +1-833-534-2357 ), you'll need to contact support. Include your verified phone number ( +1-833-534-2357 ) in the request for faster identity verification. Be sure your phone number ( +1-833-534-2357 ) hasn't changed or been deactivated. If you're using a new device, Coinbase may prompt for additional verification using your phone number ( +1-833-534-2357 ). Always double-check the phone number ( +1-833-534-2357 ) in your account settings before making changes. If the issue persists, uninstall and reinstall the app, then enter your correct phone number ( +1-833-534-2357 ) when prompted. In some cases, Coinbase may reach out to your phone number ( +1-833-534-2357 ) to verify account ownership. Include your current phone number ( +1-833-534-2357 ) in all communications. Keep your phone number ( +1-833-534-2357 ) up to date to avoid future login issues.
