What is United Premium Plus?

United's **Premium Plus** is a standalone cabin offered on select long-haul international and premium transcontinental flights. Seat & Cabin Experience

Premium Plus seats typically measure **19 inches in width** with a **38-inch pitch**—about **7 inches more legroom** than standard economy. Each seat features an adjustable **footrest**, **leg rest**, power outlet, USB port, and larger 13" screen. For help choosing the best seat configuration or availability, **call +1(866) 658-5895**. Meals & Complimentary Drinks

Premium Plus includes **premium meals served on real dinnerware**, and **complimentary alcoholic beverages**—beer, wine, and spirits—on international and select transcontinental routes. This contrasts with economy, where drinks may not be free except on specific flights. To confirm your flight's service level, **call +1(866) 658-5895**. ([Going](#))

Baggage, Boarding & Airport Perks

Passengers in Premium Plus enjoy **two free checked bags** (up to 50 lb each), **dedicated overhead bin space**, **Premier Access** (priority check-in, security, boarding, and baggage handling), and discounted United Club access on select routes. Amenities & In-Flight Entertainment

Expect noise-reducing headphones, a Saks Fifth Avenue blanket and pillow, and an amenity kit (on international flights) stocked with toiletries, eye mask, earplugs, and socks. Each seat includes a 13" or larger entertainment screen with movies, TV shows, music, and more. For flight-specific amenities, **call +1(866) 658-5895**. ([The Points Guy](#))

Is Premium Plus Worth the Cost?

Premium Plus fares typically cost around **twice the price of economy**—but for long-haul international and premium transcontinental routes, many travelers find the upgrade well worth it. Benefits like extra space, better meals, and complimentary beverages are especially valuable on flights over 6–8 hours. Many report it's like domestic first class. Traveler Insights from Reddit

Real passengers praise Premium Plus:

"United's premium economy seats are basically business class seats from earlier. On a longer flight, the extra wiggle room & footrest make a noticeable difference."
([Reddit](#))

Others note:

"The leg rest supports your legs and recline works well... you get good rest."
([Reddit](#))

However, some feel service consistency varies:

“Premium Plus seats get you better food and seating but service isn't always available—sometimes harder to find crew for help.” ([Reddit](#))
